**Others not listed** – be specific: \_\_\_\_\_

-----  
**On-line Courses:** New Summit School offers a broad array of courses for students wishing or needing to work on-line. These courses follow state and national standards. These are self-paced, individualized courses taken on the computer. Students must have permission from their schools to receive credit for on-line work. This option offers greater flexibility in meeting individualized needs or in case courses listed above do not materialize. The computer lab could possibly be opened for extended hours to meet student needs. There will be on-site on-line classes offered, as well as home-based on-line classes with proctored exams.
